# Asking a Question

To ask a question on the Divination screen, you'll first select a question template.

## Clarifying Your Questions

Click on **Formulate Your Question** near the top of your screen. A list appears that features the possible question templates.

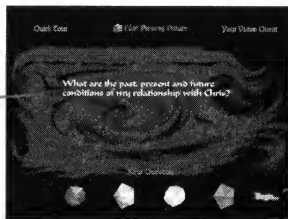

## Types of Readings

A label appears near the top of your screen as you move your cursor over the list. This label tells you the type of reading you'll receive: **Messages** are presented in one card, **Past Present Future** and **Mind Body Spirit** readings utilize three, while the **Celtic Cross** presents eleven cards.

## Customizing Your Question

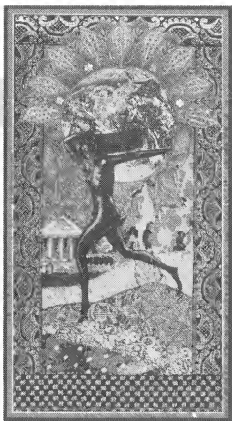

Once you've selected the format for your question, the list disappears and the full text of the question template appears. Some parts of the question are presented in white text.

Personalize the template by clicking on the white text and typing in the specifics of your own question.

Click here after personalizing your question.

Click over the white text and type in words to revise the question for your personal needs. When you're finished, click on the flashing **Begin...** in the lower right corner of your screen.

## Experiencing Your Reading

As the **Tableau** screen appears, notice the glistening crystal at the top of your screen and the swirling pool that makes up the Tableau. Keeping your question in mind, click on the crystal. The silhouette of one of your Tarot Guides will appear. For three card or eleven card readings, continue clicking on the crystal until all the silhouettes appear.

### SILHOUETTES OF YOUR GUIDES

Once the silhouette of your Guide or Guides appear, move your cursor over a silhouette to reveal the topic each Guide represents. Generally, you'll reveal your Guides from left to right. For example, in a Past Present Future reading, click on the left Guide to reveal the significance of past events or attitudes. The eleven Guides of the Celtic Cross are numbered according to the order in which they should be revealed.

Click on the silhouette of your Guide to reveal the first of three parts of your Tarot reading.

# THE DREAM, THE AWAKENING, AND THE ENCHANTMENT

The interpretation of each card is presented in three parts: the Dream, the Awakening, and the Enchantment.

## *The Dream*

The Dream begins immediately. Your Guide narrates a gentle fable explaining the action and symbols portrayed. This is the card's Dream. You may interrupt it by clicking within the animation.

NOTE: If you clicked on **Reveal All** and then clicked on a Guide, you'll need to click on **The Dream** in the box to the right to see the animation unfold.

When the Dream has finished, two boxes will appear to the right of your screen. The top box displays labels you can click to activate The Dream, The Awakening, and The Enchantment. The bottom box contains your *TAROT PRO* reading. (To learn more about **Interpreting Your Reading with TAROT PRO**, see page 7.)

## *The Awakening*

Selecting The Awakening brings the lesson of The Dream into clearer focus, helping you to evaluate and use The Dream. The voice and music set the tone for understanding The Awakening.

## *The Enchantment*

Finally, click on **The Enchantment** to reveal a scroll describing a ritual you can perform to bring reality to the ideas presented in the cards. Click within the text to close it when you're finished.

To keep your original question in mind, click on **Show Question** in the upper left corner of your screen. Your question will appear in a box towards the bottom of the screen. Click and drag it anywhere on the screen that you wish. The box will disappear when you click on **Close**.

Click on **Your Guides...** to return to the Tableau where you can review previous cards. You can also consult the next Guide, if any, by clicking on its silhouette which you revealed earlier by clicking on the glistening crystal near the top of the screen.

When you've finished revealing all of your cards and experiencing the various interpretations, click on **Interpret My Reading** to reveal a compilation of your *TAROT PRO* text. You may scroll through it by clicking on the arrows, or print the text by clicking on **Print**. Click on **Close** to close the text box.

### INTERPRETING YOUR READING WITH TAROT PRO

The *TAROT PRO* feature of *THE ENCHANTED TAROT* offers you the wisdom of the renowned Tarot expert, Monte Farber. *TAROT PRO*'s interpretations are based on the position of the 78 cards within multiple card layouts and the type of question you have asked. This multi-level design recreates the methods of professional Tarot card readers and is exclusive to *THE ENCHANTED TAROT*.

The *TAROT PRO* interpretations appear in a text box below the labels that activate The Dream, The Awakening, and The Enchantment.

## IN A HURRY?

Select and edit your question as usual. Click on **Begin**. On the Tableau screen, click on the glistening crystal to choose your Guides. After you have selected all of your Guides, click on **Reveal All**.

After your Guides are revealed, the **Reveal All** label becomes **Interpret My Reading**. Click on this label to see your full *TAROT PRO* reading presented in a text box.

Scroll through it or **Print** it. Click on **Close** to close the text box.

## *Saving Readings*

To save your reading, select **Save Your Reading** from the **File** menu, or click on the Divination crystal at the bottom of your screen and then select **New Question**.

# DIARY

## REVIEWING YOUR READINGS AND COMMENTS

Select the Diary crystal at the bottom of your screen to reveal a scroll that lists your readings chronologically. Select a reading by clicking on it. If you typed comments about the reading when you saved it, they appear at the bottom of the scroll.

Click on **View** to go to the Tableau screen where your cards will be displayed. Click on any card to see its Dream, Awakening, or Enchantment again.

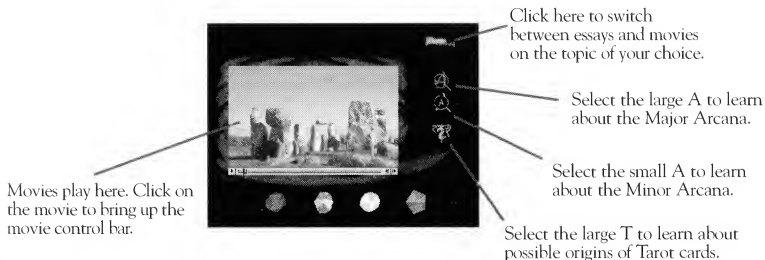

Click on **Delete** to eliminate the selected reading from your diary. Your comments will be deleted as well. To make sure you don't accidentally delete a reading, *THE ENCHANTED TAROT* asks you whether you're sure you want to delete the entry.

# HISTORY

## THE ORIGINS OF TAROT AND THE ENCHANTED TAROT CARDS

Select the History crystal from the bottom of your screen to learn more about the origin of Tarot cards, their esoteric meaning, and their relationship to common playing cards through movies and essays.

When the History screen appears, you'll see three symbols to your right. The top icon takes you on the Fool's Journey, introducing the personalities represented in the Tarot's Major Arcana cards. Click on the middle icon to learn about the Minor Arcana, ancestors of modern playing cards. The bottom icon offers fascinating details about the mystery shrouding the origin of the Tarot.

You can learn about these topics in either movie or essay form. The word **Movie** appears in gold as a reminder that your selection from the three icons will begin a movie. If you click on the word **Essay**, located behind **Movie**, then **Essay** becomes highlighted in gold. Click on one of the three icons to read an essay on the selected topic.

When you watch a movie, you can click on the movie to bring up a control bar. This bar allows you to pause and play, fast forward, or rewind. Click outside the movie display area to stop or exit the movie.

Click on the Card Review crystal at the bottom of your screen to browse through the cards of *THE ENCHANTED TAROT*. If you click on Card Review while you're within a reading, the current card in your reading will be presented first.

As you compare these beautiful cards and read the text, you'll discover interesting parallels and contrasts that help you understand their meanings—individually and in relation to one another.

From the Major Arcana, click on a number to select a card. From the Minor Arcana, select Wands, Swords, Hearts, or Pentacles by clicking on one of the four icons above the column of numbers. Then select a number or face card from the list below these icons.

For each card, the text for its Dream, Awakening, and Enchantment appears to the left. Scroll through the text by clicking on the arrows or dragging the rectangle between the arrows.
